The company complies with the Vietnamese Accounting Standards and Accounting System issued by the Ministry of Finance. It is consistent with the characteristics of the Company's production and business activities.

- 3 **Applicable accounting form:**

The company applies computerized accounting books, using Song Da Accounting System software.

IV. Applicable accounting policies

1 Basis for preparing consolidated financial statements

Subsidiaries are entities controlled by the Company when the Company holds directly or indirectly more than 50% of the voting rights in an entity or has the ability to govern the financial or operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The consolidated financial statements of Song Da 9 Joint Stock Company are prepared on the basis of consolidating the financial statements of the Company and its subsidiaries in which the Company directly holds 50% or more of the equity as of 31/3/2025. Internal transfers and internal balances are eliminated when consolidating the financial statements.

Minority interests in the consolidated subsidiary's net assets, identified as a separate item from the Company's shareholders' equity, consist of: the value of the minority interests at the date of the original business combination and the minority interests in changes in total equity since the date of the business combination.

Investment in an associate: An associate is an entity in which the Company has significant influence and that is neither a subsidiary nor a joint venture of the Company. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

In the Consolidated Income Statement, minority interests are identified and presented separately in the item "Profit after tax of minority interests". Minority interests are identified based on the ratio of minority interests to profit after corporate income tax of subsidiaries.

In the company's financial statements, internal transactions and internal balances have been eliminated.

2 Principles of recording cash and cash equivalents

2.1 Principles of recording cash and cash equivalents

Cash and cash equivalents include: cash on hand, short-term investments, or highly liquid investments. Highly liquid investments are those that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

2.2 Principles and methods of converting other currencies into the currency used in accounting:

- + All economic transactions arising in foreign currencies are converted into Vietnamese Dong at the actual exchange rate. Exchange rate differences of transactions arising during the period are reflected in the Business Performance Report.
- + Assets are cash and liabilities denominated in foreign currencies at the end of the period are converted into Vietnamese Dong at the average interbank exchange rate announced by the State Bank of Vietnam at the date of the Financial Statements.

3 Principles of inventory recognition

3.1. Principles of inventory valuation and methods of determining inventory amount by the end of period:

- * Inventories are determined on the basis of original cost. Original cost of inventories includes: Purchase costs, processing costs and other directly relevant costs incurred in bringing the inventories to their present location and condition.

- * **Unaccounted costs and inventory cost:**

- Trade discounts and purchase price reductions due to purchases not meeting specifications or quality.
- Raw material costs, labor costs and other production and business costs incurred above normal levels.
- Inventory holding costs minus inventory holding costs necessary for further production and inventory holding costs incurred during the purchasing process.
- Cost of sales.

- Business management costs.
- 3.2. **Method for determining the amount of ending inventory:** Ending inventory amount = Beginning inventory amount + Import amount during the period - Export amount during the period.
Method for calculating the amount of exported goods using the Weighted Average method after each import
- 3.3. **Inventory accounting method:** according to the Perpetual Declaration method.
- 3.4. **Lập dự phòng giảm giá hàng tồn kho:**

The provision for inventory devaluation is made at the end of the year as the difference between the original cost of inventory and their net realizable value.

4. Principles of recording and depreciating fixed assets

4.1 Principles of recording tangible and intangible fixed assets and financial leases

- The Company's fixed assets are accounted for according to 3 criteria: original price, accumulated depreciation and residual value.
- The original cost of a fixed asset is determined as the total cost that the unit has spent to acquire that asset up to the time the asset is put into a position ready for use.

4.2 Fixed Asset Depreciation Method

- Fixed assets are depreciated over their estimated useful lives and using the straight-line depreciation method. The depreciation period is calculated according to the depreciation period prescribed in Decision No. 203/2009/TT-BTC dated October 20, 2009 of the Ministry of Finance and has been replaced by Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance. The specific depreciation period is as follows:

Type of Asset	Thời gian KH năm
Building and Structure	15-40
Equipment and Machinery	5-20
Transportation Vehicles	8
Management Equipment	3-5
Other fixed assets	3-5

5 Principles of recording financial investments

- 5.1 **The Company's short-term financial investments include:** term deposits and loans with a recovery period of less than 01 year, recorded at original cost starting from the date of deposit or loan.

- 5.2 **The Company's long-term financial investments include** investments in associates, loans with a recovery period of more than one year and other long-term investments recorded at original cost, starting from the date of capital contribution or the date of purchase of shares and bonds.

5.3 Method of making provision for short-term and long-term investment depreciation:

Provisions for short-term and long-term investment depreciation are applied according to the guidance in Circular No. 89/2013/TT-BTC dated June 28, 2013 of the Ministry of Finance.

6. Principles of recognition and capitalization of borrowing costs

Accounting policy applied to borrowing costs The Company implements in accordance with Accounting Standard No. 16 on Borrowing costs, specifically:

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are included in the cost of that asset (capitalized), including interest, amortization of discounts or premiums when issuing bonds, and additional costs incurred in connection with the borrowing process.

Capitalization of borrowing costs shall be temporarily suspended during periods in which the investment in construction or production of uncompleted assets is interrupted, except for cases where such interruption is necessary.

Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the asset for its intended use or sale are completed. Borrowing costs incurred thereafter are recognised as an expense in the period in which they are incurred.

Income arising from temporary investment of separate loans while waiting to be used for the purpose of obtaining unfinished assets must be recorded as a deduction (-) from the borrowing costs incurred when capitalizing.

Borrowing costs capitalized during a period should not exceed the total borrowing costs incurred during the period. Interest and amortization of discounts or premiums capitalized during any period should not exceed the actual interest incurred and amortization of discounts or premiums during that period.

7 Record payable expenses, provision for major repair costs.

Actual expenses that have not yet arisen but are deducted in advance from production and business expenses in the period to ensure that when actual expenses arise, they do not cause sudden changes in production and business expenses based on the principle of matching revenue and expenses. When such expenses arise, if there is a difference with the amount deducted, the accountant will record additional expenses or reduce the expenses corresponding to the difference.

For specific fixed assets, the repair is cyclical, the cost of major repairs of these assets is deducted based on the estimate or plan notified to the direct tax authority and is accounted for in production and business costs.

8 Owner's Equity:

Equity is recorded at the actual amount contributed by the owner.

Share premium is recorded at the larger difference between the actual issue price and the par value of shares when issuing shares.

Treasury shares are recorded at actual repurchase cost including purchase price and direct costs related to the repurchase of shares.

Principles for setting up funds from after-tax profits: Setting up funds from after-tax profits is carried out in accordance with the Company's charter and the Resolution of the Company's Shareholders' Meeting.

9 Principles and methods of revenue recognition

9.1 Revenue from sales of goods and provision of services is recognized when all of the following conditions are simultaneously satisfied:

- The significant risks and rewards of ownership of the product or goods have been transferred to the buyer;
- The Company no longer holds the right to manage the goods as the owner of the goods or the right to control the goods;
- Revenue is measured with relative certainty;
- The Company has obtained or will obtain economic benefits associated with the sale transaction;
- Identify the costs associated with a sales transaction.

9.2 Construction revenue is determined based on the amount of the performed volume, confirmed by the customer through acceptance, settlement, and issuance of VAT invoices, in accordance with the provisions of Accounting Standard No. 15 - "Construction Contract".

9.3 Financial revenue: Revenue arising from interest, proceeds from the sale of investment shares, dividends, distributed profits and other financial revenue is recorded when both of the following conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the entity;
- Revenue is determined with relative certainty.

10. Principles and methods of recording financial expenses

Financial expenses are recorded in full on the Income Statement as total financial expenses without offsetting against financial revenue and minus capitalized interest expenses, if any.

11. Principles and methods of recording current corporate income tax expenses and deferred corporate income tax expenses

- Current corporate income tax expense is determined on the basis of total taxable income and corporate income tax rate in the current year.
- Deferred corporate income tax expense is determined based on the deductible temporary difference, taxable temporary difference and corporate income tax rate. Current corporate income tax is not offset against deferred corporate income tax expense.

12. Other accounting principles and methods

12.1 Principles for recording trade receivables and other receivables:

- Recognition principles: Customer receivables, prepayments to vendors, internal receivables, and other receivables at the date of reporting, if:
- Provision for doubtful debts: Provision for doubtful debts represents the estimated loss value of receivables that are likely to be unpaid by customers for receivables at the time of preparing the annual financial statements.
- Provision for doubtful debts
 - + 30% of the value for receivables overdue from 6 months to less than 1 year
 - + 50% of the value for receivables overdue for more than 1 year
 - + 70% of the value for receivables overdue from 2 to 3 years.
 - + 100% of the value for receivables overdue for more than 3 years.

12.2 Recognition of trade and other payables

- Payables to suppliers, internal payables, other payables, loans at the reporting date, if:
- Debt with a payment term of less than 1 year or within one business production cycle is classified as short-term debt.
- Debt with a payment term of more than 1 year or over a business production cycle is classified as long-term debt.
- Shortage of assets awaiting resolution is classified as current liabilities.

- Deferred income taxes are classified as long-term liabilities.

12.3 Foreign exchange risk hedging operations

- All transactions related to revenue and expenses are recorded at the actual exchange rate at the time the transaction occurs. Exchange rate differences of transactions occurring during the period are recorded as an exchange rate gain (loss).
- Assets are cash and liabilities with foreign currency origin at the end of the period are converted into Vietnamese Dong at the buying exchange rate of the commercial bank where the enterprise opens an account announced on the closing date of the financial statements. Exchange rate differences are recorded in the exchange rate difference account and are processed according to detailed instructions in Circular No. 179/2012/TT-BTC dated October 24, 2012 and Circular No. 161/2007/TT-BTC dated December 31, 2007 of the Ministry of Finance guiding the implementation of 16 Vietnamese Accounting Standards.

12.3 Tax obligations:

- Value Added Tax: The Company declares and pays Value Added Tax at the Hanoi Tax Department, and its subsidiaries declare VAT at the Tax Departments where the unit is headquartered. Every month, input and output tax declarations are made in accordance with regulations. At the end of the fiscal year, the unit prepares Value Added Tax Reports in accordance with current regulations.
- Corporate income tax: The Company shall settle corporate income tax according to regulations. The corporate income tax rate is 20% according to the provisions of the Corporate Income Tax Law effective from January 1, 2014.
- Nam Mu Hydropower Plant applies a corporate income tax rate of 10% on taxable income for 15 years from the date of establishment, is exempted from tax for 6 years from the first profitable year of business and has a 50% reduction for the next 7 years.
- Other taxes are implemented according to current regulations.

12.4 Principles for recording construction in progress costs

Construction in progress costs are construction costs of projects such as Pake Hydropower Plant and Ghenh Chang Hydropower Plant under construction for production purposes, recorded at original cost, at the time of acceptance and final settlement of each construction item or project, or when actual costs incurred have full legal invoices and documents.

12.5 Principles of recording short-term and long-term loans

Short-term and long-term loans are recorded on the basis of receipts, bank documents, loan agreements and loan contracts. Loans with a term of 1 fiscal year or less are recorded as short-term loans by the Company. Loans with a term of more than 1 fiscal year are recorded as long-term loans by the Company.

12.6 Principles of recording cost of goods sold

Cost of goods sold is recorded and aggregated according to the value and quantity of goods and materials sold to customers, consistent with revenue recorded during the period.

Construction cost recorded in the period is specifically determined as follows:

Cost of goods sold during the period = Unfinished production costs at the beginning of the period + costs incurred during the period - Unfinished production costs at the end of the period

In which: Unfinished production costs at the end of the period are determined = 90% of unfinished production at the end of the period (Before VAT)

work in progress by the end of period is determined based on the Work Inventory and Value in Progress by the end of period.

16.5 Corporate funds

Development investment fund

*** Purpose of establishing and using funds:**

The Development Investment Fund is set aside during the year from the exempted corporate income tax and after-tax profit according to the Minutes of the General Meeting of Shareholders of Song Da 9 Joint Stock Company, in accordance with the provisions of the Company's Charter. It is used to supplement the Company's charter capital when expanding production and business.
