## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

*(These notes are an integral part of and should be read in conjunction with the accompanying consolidated financial statements)*

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### 3.1 BASIS OF CONSOLIDATION OF FINANCIAL STATEMENTS (CONT'D)

##### **Non-controlling shareholder interests**

Non-controlling shareholder interests in the net assets of the consolidated subsidiary are presented separately from the equity of the Company's shareholders. Non-controlling interests comprise the non-controlling shareholders' share of the fair value of the net assets at the acquisition date and their proportionate share of changes in equity since the acquisition date. Losses incurred at the subsidiary must be distributed in proportion to the non-controlling shareholder's share of ownership, even if such losses are greater than the non-controlling shareholder's share in the subsidiary's net assets.

##### **Business combinations**

Business combinations are accounted for using the acquisition method as of the acquisition date, which is the date on which control is transferred to the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity to obtain economic benefits from its activities. In assessing control, the Company considers potential voting rights that are currently exercisable.

Under the acquisition method, the assets, liabilities, and contingent liabilities of the acquired company are measured at fair value as of the acquisition date. Any excess of the consideration transferred over the total fair value of the acquired assets is recognized as goodwill. Conversely, any deficiency between the consideration transferred and the total fair value of the acquired assets is recognized as a gain in profit or loss in the period in which the subsidiary acquisition occurs.

The non-controlling interest at the initial business combination date is determined based on the proportionate share of the non-controlling shareholders in the total fair value of the acquired assets, liabilities, and contingent liabilities.

#### 3.2 FINANCIAL INSTRUMENTS

#### 3.3 ACCOUNTING ESTIMATES

The preparation of the consolidated financial statements in conformity with Vietnamese Accounting Standards requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the financial year. Actual results could differ from those estimates.

<b>Basic earnings per share (VND/share)</b>	<b>875</b>	<b>583</b>

The basic/diluted earnings per share (EPS) for the previous period have been recalculated to account for the deduction of the appropriation to the Bonus and Welfare Fund when determining the profit used for calculating basic EPS, in accordance with the Resolution of the 2025 Annual General Meeting of Shareholders No.01/2025/BB-DHDCD dated 25 April 2025. This recalculation has resulted in a decrease in the basic/diluted EPS for the previous period from VND 739 to VND 583.

The basic EPS for the current period has not been adjusted for appropriations to the Bonus and Welfare Fund or remuneration for the Board of Directors and the Board of Supervisors (non-executive members) due to the unavailability of information.

No transactions of ordinary shares or potential ordinary share transactions occurred between the end of the financial year and the publication of these consolidated financial statements.

**34. DILUTED EARNINGS PER SHARE**

The Board of Directors of the Company assesses that in the coming period, there will be no impact of instruments that can be converted into shares that dilute the value of shares, so diluted earnings per share are equal to basic earnings per share.
